

Pranav Mallinath Chougale

Cloud/DevOps Engineer | AWS | Terraform | CI/CD | Docker and Kubernetes

+916360326864 | pranavchougale17@gmail.com | GitHub | LinkedIn | Portfolio

Professional Summary:

DevOps engineer with hands-on experience building CI/CD pipelines, containerized applications, and cloud infrastructure on AWS. Experienced with Docker, Kubernetes, Terraform, Jenkins, and GitHub Actions for automating build and deployment workflows. Skilled in infrastructure provisioning, monitoring, and deployment automation for scalable cloud environments.

Skills:

- **DEVOPS TOOLS:-** Jenkins, GitHub Actions, Git, GitHub, CI/CD
- **CONTAINERS & ORCHESTRATION:-** Docker (build, tag, push), Docker Compose and Kubernetes
- **CLOUD PLATFORMS:-** AWS(EC2, S3, IAM, VPC), Azure, Devops Ecosystem:- Maven, Sonarqube & Nexus.
- **IAC:-** Terraform (Infrastructure provisioning), Ansible (Configuration management)
- **MONITORING:-** Prometheus, Grafana, Shell scripting, package management, user/permission management
- **PROGRAMMING & SCRIPTING:-** Python, Javascript.

Projects:

1. DevPulse — Cloud-Native Microservices Platform

Tech Stack: Node.js, Express, Docker, Kubernetes (AWS EKS), Helm, Terraform, GitHub Actions, AWS ECR, PostgreSQL, MongoDB, Redis, Prometheus, Grafana

- Architected and deployed a production-grade microservices platform (auth, URL shortener, analytics) on AWS EKS using Kubernetes, Helm with HPA (2–10 replicas), and Terraform-provisioned AWS infrastructure (VPC, ECR, IAM, EBS CSI) with remote state management.
- Containerized all services using optimized multi-stage Dockerfiles with non-root execution and dumb-init, and automated the full delivery pipeline via GitHub Actions CI/CD with end-to-end observability through Prometheus and Grafana dashboards.

2. CloudForge - End-to-End Infrastructure Automation & Deployment

Tech Stack: Terraform, Ansible, Kubernetes, Docker, Jenkins/GitHub Actions, AWS (EC2, VPC, IAM), Git, Linux, Shell Scripting

- Automated cloud infrastructure provisioning with Terraform and configuration management using Ansible for consistent environments.
- Deployed and managed scalable Kubernetes applications via CI/CD pipelines with automated builds, image creation, and cluster updates.

Experience / Training

- Cloud/ Devops Engineer Trainee
- JSpiders | Bangalore | December 2024 – August 2025
- Completed 9 months structured DevOps training program, Automating Cloud Infrastructure using Terraform.
- Implemented CI/CD and containerization, Deployed containerized applications using Kubernetes

Education

MCA – AMC Engineering College, Bangalore | 2023 – 2025 | CGPA: 9.0

BCA – SJPN Trust's Degree College, Nidasoshi | 2020-2023 | CGPA – 8.7
